

## WINCHESTER OB-GYN ASSOCIATES, P.C.

### Office Updates

Thank you for choosing Winchester OB/GYN Associates. It is our privilege to care for you and to provide you and your family with the quality service you deserve. The heart of what we do centers on caring with compassion and treating you like family.

At Winchester OB/GYN Associates we take the safety of our patients and our employees very seriously. Therefore, as of June 8, 2020 we have established additional policies and procedures in accordance with Phase 2 of Massachusetts state re-opening guidelines.

At this time, we would like to assure all our patients that we are available to you. We continue to see our pregnant patients and urgent visits and will now start scheduling non-urgent visits in the office.

We are asking patients to attend their appointments by themselves and ask that children and guests do not come to the office. This policy will reduce the number of people in our waiting room.

We ask that each patient that enters our office wear a mask or any type of facial covering and use the hand sanitizer provided at the front desk prior to checking in.

For your comfort, telehealth visits are available for non-urgent appointments.

We are committed to treating our patients in a safe environment. If you have specific questions or concerns, please do not hesitate to call our office at (781) 721-4701. We wish you all continued good health.
